WHY CHOOSE DECCANSOFT?

- a) **Decades of Excellence:** Mr. Sandeep Soni and Mr. Rahul Rampurkar are our lead trainers, and they have experience over 27 years. They are also actively involved in our software development activities and hence can teach you the subject as in real-time live projects.
- b) **Live and Recorded Sessions:** Most of our courses are delivered as a combination of both Live training and recorded videos. Live training sessions can be used for directly interacting with your trainer and Recorded videos can be used for revision and doing labs.
- c) **Our Courseware:** Our courseware is prepared by our trainers who have on average experience of more than 25+ years. For every course, we include all the relevant concepts and are supported by relevant real-time examples and case studies.
- d) **Live Projects for Hands-on Experience:** All our courses are included with lots of Hands-on practice labs. **These** labs would include real-time case studies and live projects wherever applicable.

- e) **Personalized Career Advancement:** Connect with Mr. Sandeep Soni for one-on-one guidance and support, paving the way for your dream job in the IT industry.
- f) **Novice to Advanced Proficiency:** Whether you're starting from scratch or looking to advance your skills, our training caters to all levels, making your IT journey seamless and rewarding.
- g) **Pay once and attend multiple times:** Once you have registered for the course, we give you opportunity to attend the LIVE sessions multiple times in a year. You also get limited period access to Videos for revision.
- h) **Microsoft Certifications:** Wherever available, we ensure that all our course content covers the entire certification exam syllabus. If you follow our guidelines, we can actually assure you 100% pass in certification. We also conduct 21 days challenges for various certifications at different times.

HOW TO GET ACCESS TO SOFTWARE/LABS FOR PRACTICE?

- **For Azure courses and Azure DevOps**, we provide access to Azure Portal (shared subscription). You can use the same for practicing all your labs. This is shared with other students also. To control the cost we will expect you to delete all resources immediately after completing your practicing session. Even otherwise, we will be deleting all the resources at the end of the day between 5:30 PM and 6:00 PM (Indian Standard Time)
- **Dedicated Azure Pass**, if required, you can buy a dedicated Azure Pass for Rs. 1500 per month. This subscription will be used by you alone and has a validity of 1 month / 100 USD.
- **Extending Shared Subscription**: Based on the course we provide limited FREE Azure access. After the access is completed, you can either buy a Dedicated Azure Pass for Rs. 1500/- per month or extend your shared subscription for Rs 800/- per month.
- **For other courses**, in the session itself, we will share with you the required instructions to setup your Desktop/Laptop.

COURSE COMPLETION CERTIFICATE?

On completion of the course, you can request Mrs. Kashmira Shah for your course completion certificate.

ABOUT OUR PLACEMENT PROGRAM:

We **don't guarantee** any placements for our students.

We provide you with wonderful courseware and our trainers will teach you concepts in such a simple language that if you can reach the interview stage, you should be able to crack the interview with ease. Of course, it does depend on how well you digest and prepare the subject along with practice. If you are a bit of a slow learner, we do give you the opportunity to attend the session multiple times in a year.
